US Government Purchases of Dahua and Hikvision Mapped

By [Donald Maye](#), Published May 24, 2021, 11:06am EDT | [Email This](#)

PUBLIC - This article does not require an IPVM membership. Feel free to share.

300+ different government organizations have purchased Dahua and Hikvision products since the [NDAA went into effect in August 2019](#), according to data IPVM obtained through [GovSpend](#) and co-reported with TechCrunch.

This shows how sellers profit from contracts with state and local governments despite the well-documented cybersecurity risks and [human rights abuses](#) of Hikvision and Dahua.

See [the TechCrunch article: "US towns are buying Chinese surveillance tech tied to Uighur abuses"](#).
